

## Army Environmental Training Through 4th Qtr FY05

The following courses are scheduled April through September 2005 by their respective schools/training sources. In a few cases courses are included which have no remaining offerings this FY, so readers can watch for them for next year.

The asterisks in the Army lists indicate Army courses approved by the [Interservice Environmental Education Review Board \(ISEERB\)](#) for use by all Department of Defense (DoD) Components. The Pest Management courses at the Army Medical Department Center & School are all similarly approved by the [Armed Forces Pest Management Board](#). ISEERB-approved courses available from other Defense Components are listed in the last section below.

Always check the original training source to verify dates and locations (classes may be cancelled) and to locate registration procedures. Course numbers may be needed, and are indicated in parentheses.
